

CWGI Break a Milestone Club

This program is for members who are experienced golfers and interested in an organized approach to encourage and support them to improve their game, to play more consistently and to achieve score milestones such as 100, 90 and 80.

The program will include the opportunity to:

- Register for lesson packages offered by CWGI golf pro partners geared to breaking a milestone, including an “on course” playing lesson experience,
- Play together in normally scheduled 18 hole games for mutual encouragement and support,
- Understand and participate in a Handicap Program, and
- Participate in a competitive handicap based tournament, if they wish.

At the beginning of the season CWGI members will be canvassed to identify those interested. Interested members will then be advised about the components of the program, which at their option they may register for online.
